

EU 2017/821

Conflict Minerals Regulation

To prevent the financing of armed groups and security forces in these resource-rich areas, the European Union adopted Regulation (EU) 2017/821, laying down supply chain due diligence obligations for Union importers of tin, tantalum and tungsten, their ores, and gold originating from conflict-affected and high-risk areas.

COMPLIANCE STATEMENT

To the best of our knowledge, Cue Dee products does not contain any minerals from a conflict zone.
