Environmental Policy

Cue Dee AB is committed to conducting its business in an environmentally responsible and sustainable manner, as climate change is a very relevant issue to Cue Dee and the general telecom industry. We aim to minimize environmental impact across our operations and value chain while delivering cost-effective telecom infrastructure solutions.

We commit to

- Comply with applicable environmental legislation and requirements
- Continuously improve our environmental performance
- Reduce greenhouse gas emissions in line with the Paris Agreement, following our owner's commitment.
- Apply a structured approach aligned with ISO 14001 principles
- Promote resource efficiency and use of recyclable materials
- Integrate environmental requirements in our Supplier Code of Conduct and engage suppliers to improve environmental performance
- Ensure employee awareness and engagement

Targets

- Reduce Scope 1 & 2 emissions by 50% by 2030 (base year 2020, relative to turnover).
- Reduce Scope 3 emissions by 25% by 2030 (base year 2020, relative to turnover).

Measures include energy efficiency improvement, electrification of company vehicles, reduced travel, optimized logistics, and sustainable material choices.

Implementation is ensured through defined objectives, annual follow-up, and integration into business and supplier processes.

Magnus Eidebo

CEO, Cue Dee Group
